

Australia's petrochemical design, risk and safety specialists

Combining years of practical experience with the best in technical expertise, Moore Consulting & Engineering (MCE) delivers end-to-end services to industries across all areas of dangerous goods, occupational health and safety and fluid management systems.

When it comes to dealing with fuel, chemicals and risk you can rely on MCE to ensure that it is managed in an **efficient, safe and cost-effective** manner.

OCCUPATIONAL HEALTH & SAFETY (OH&S)

Making sure your workplace is safe and compliant

Today more than ever, effective Occupational Health and Safety (OH&S) is essential to the long term success of any business. With the right plans, policies and systems in place you can safeguard your employees, protect your environment and minimise your exposure to financial, business and legal liabilities.

It is every employer's responsibility to ensure the OH&S of your employees, contractors and the public, while protecting the environment in which they work. To achieve this objective, you need to analyse all work areas that can cause potential incidents and take actions to mitigate these risks.

With a proven track record in quantitative and qualitative risk assessments, as well as many specific areas of OH&S policy, procedure and implementation, MCE can provide tailored, practical and cost-effective ways of managing all your OH&S responsibilities, leaving you free to focus on running your business.

Our specific services include:

- Integrated OH&S management plans
- OH&S awareness packages
- Hazard analysis and risk assessment
- Site compliance assessments
- Insurance and risk assessments
- Policy and procedures manuals
- Risk management plans
- OH&S training
- Audit programs
- OH&S performance monitoring and reporting
- Emergency response plans
- Shutdown management plans
- Fire studies

When it comes to efficiently, safely and cost-effectively dealing with fuel, chemicals and risk you can rely on MCE.

Projects and clients

MCE has completed various OH&S and dangerous goods projects in Australia for clients including Integral Energy, Westrac and more. Our experience ranges from expert OH&S consulting and site assessment to dangerous goods management and auditing.

MCE has experience with the full range of guidelines including AS 4360-2004 "Risk Management" and Preliminary Hazard Analysis (PHA) and Hazard Operability (HAZOP) Studies for Major Facilities. We also have SAI Global trained OH&S Management and Quality Systems Auditors recognised by RABQAS international, so you can be sure you're getting the right expert advice.

Below are some project examples. Please visit our website for more information.

INTEGRAL ENERGY - risk assessment and license amendments

MCE partnered with Integral Energy to provide ongoing risk assessment and license modifications for a range of tanks, package and cylinder stores in various works depots. Services delivered included OH&S consulting, site assessments and dangerous goods consulting.

WESTRAC - dangerous goods management

MCE partnered with WesTrac - a leading equipment supply and management specialist - to compile dangerous goods training packages and conduct chemical management analysis and reports. Services included dangerous goods consulting and expert OH&S advice and services.
